

# Introduction to Monitoring and Evaluation

## Overview

This three day interactive workshop is designed for individuals who are new to the field of monitoring and evaluation or those who wish to formalise their existing understanding which has been developed through work based experience.

The course considers important concepts and activities from inception through to outcome evaluation and additionally includes valuable project management and leadership techniques.

## Course content

- Understand what is meant by monitoring and evaluation
- Understand how to design monitoring tools
- Appreciate the importance of getting Partners involved
- Understand how to plan an Outcome evaluation
- Understand how to manage project staff

**Duration:** 3 days

**Delivery:** The workshop uses a number of syndicate exercises to facilitate learning and enable transfer of content back into the work environment.
